

Professional Services Proposal

Chubby Fish Restaurant Group

Prepared for: James
Prepared by: Lucas Barber
Date: April 23, 2025

Executive Summary

Thank you for the opportunity to present this service proposal for Chubby Fish Restaurant Group. Based on our discussion, we understand you operate three distinct business units (Chubby Fish restaurant, Seahorse bar/private dining, and an Airbnb rental) and are seeking professional financial management services that provide timely reporting, strategic insights, and responsive support.

Our services are designed to address your specific pain points while providing a foundation for continued growth and expansion. We offer a partnership approach that combines industry expertise with customized solutions tailored to your unique operational needs.

Service Fee Structure

Implementation Fee (One-Time)

- Total Implementation Fee: \$900
 - Includes setup for all three business units
 - System configuration and optimization
 - Initial data cleanup and organization
 - Custom report development

Ongoing Service Fees (Weekly)

- Chubby Fish Restaurant: \$225/week
- Seahorse Bar & Private Dining: \$225/week
- Airbnb Rental: \$50/week

Terms

- No long-term contract required
- Cancellation at any time
- All processes, procedures, and systems developed during our engagement remain your property

Our Approach & Value Proposition

Strategic Partnership

We operate as an extension of your executive team, providing far more than basic bookkeeping services. Our approach delivers financial intelligence and strategic guidance that drives business performance:

1. Executive-Level Consulting: We function as your outsourced CFO, providing strategic financial guidance and performance analysis tailored to your restaurant group's specific needs.
2. Industry-Specific Expertise: Our specialized knowledge of restaurant operations brings insights that general bookkeepers cannot provide, addressing your industry's unique challenges effectively.
3. "CPA Ready" Financial Management: We maintain your books at a professional standard, ensuring all records are organized and documented for your CPA to use without costly cleanup.
4. Responsive Service: Unlike your current provider, we respond quickly to questions and requests, typically within 30-60 minutes, not days.
5. Growth Support: As you expand to additional concepts, our systems scale with you, providing continuity and consistency.
6. Knowledge Transfer: We build systems that remain yours even if our relationship ends, ensuring you're never locked in.

Your Priorities & Our Solutions

1. Comprehensive Monthly Financial Reporting

Current Challenge: Your current CPA firm charges monthly but doesn't provide timely monthly reporting, leaving you without the insights needed to make informed business decisions.

Our Solution: We will implement a weekly and monthly reporting system that provides actionable financial intelligence for each business unit, including:

Chubby Fish Restaurant:

- Weekly prime cost reports (food, beverage, labor)
- Monthly P&L with YTD comparison
- Food cost analysis by category
- Labor productivity metrics

Seahorse Bar & Private Dining:

- Weekly prime cost reports
- Monthly P&L with YTD comparison
- Revenue breakdown by service area (bar vs. private dining)
- Event profitability analysis

Airbnb Rental:

- Monthly occupancy and revenue reports
- Expense tracking and management
- Profitability analysis
- Integration with Airbnb platform data

Implementation Approach:

- Configure systematic data collection from all revenue sources
- Establish consistent coding structure for expenses
- Develop custom reporting templates for each business unit
- Provide regular review meetings to discuss financial performance

2. Strategic Tax Planning & Business Investment Optimization

Current Challenge: You've invested significantly in your physical space (\$1M building investment) but aren't receiving proactive advice on tax advantages or strategic financial planning.

Our Solution: We will work with your CPA to implement strategic tax planning that optimizes your business investments:

All Business Units:

- Cost segregation analysis for your building investment
- Identification of available tax credits and deductions
- Strategic expense timing recommendations
- Entity structure optimization

Implementation Approach:

- Coordinate with your tax professionals
- Document all capital improvements with proper classification
- Implement tracking systems for tax-advantaged expenses
- Provide quarterly tax planning meetings

3. Systematic Financial Data Management

Current Challenge: Your QuickBooks system is not being properly maintained, with missing revenue and inconsistent data entry.

Our Solution: We will establish reliable systems for capturing and organizing all financial data:

Chubby Fish Restaurant:

- QuickBooks clean-up and optimization
- POS integration with accounting system
- Vendor management system

Bank and credit card reconciliation

Seahorse Bar & Private Dining:

- Revenue center configuration in POS
- Event tracking and reporting
- Inventory management by location

Airbnb Rental:

- Integration with rental platform
- Expense categorization system
- Occupancy and revenue tracking

Implementation Approach:

- Initial QuickBooks cleanup and organization
- Implementation of consistent transaction coding procedures
- Configuration of integrations between systems
- Staff training on proper data entry procedures

4. Multi-Business Unit Tracking & Reporting

Current Challenge: Managing multiple business units with different operational models requires specialized tracking and reporting.

Our Solution: We will implement business unit tracking that provides both unit-specific and consolidated views:

All Business Units:

- Clear business unit separation in financial systems
- Allocation methodologies for shared resources
- Unit-level performance metrics
- Consolidated financial reporting

Implementation Approach:

- Configure tracking systems appropriate to each business
- Establish consistent allocation methods for shared resources
- Develop multi-unit reporting templates
- Implement comparative analysis tools

5. Vendor & Invoice Management

Current Challenge: Working with 26 different purveyors, including local fishermen with handwritten invoices, creates reconciliation challenges and potential for missed credits.

Our Solution: We will implement a comprehensive vendor management system:

Chubby Fish Restaurant & Seahorse:

- Systemized invoice processing
- Vendor credit tracking
- Payment optimization
- Special vendor relationship management (local fishermen, etc.)

Implementation Approach:

- Establish procedures for all invoice types (electronic, paper, handwritten)
- Implement vendor credit tracking system
- Configure vendor performance metrics
- Train staff on proper documentation procedures

6. Additional Available Services

While not specifically requested, the following services are available when needed:

Accounts Payable Execution:

- We can take over the full accounts payable function if desired in the future

Payroll Processing:

- Currently managed by your wife through Escalon, but we can provide support or take over this function if needed

System Selection & Implementation:

- Assistance with evaluating and implementing new operational systems as your business grows

Budget Development & Forecasting:

- Creation of detailed budgets and financial forecasts for each business unit

Next Steps

1. Review this proposal and provide feedback
 2. Schedule implementation planning meeting
 3. Complete systems access authorization forms
 4. Begin Phase 1 implementation
-

We appreciate the opportunity to serve your business and look forward to building a productive partnership that supports your continued success and growth.
